

Madhya Pradesh

Madhya Pradesh (/ˌmɑːdʒə prəˈdɛʃ/,^[9] Hindi: [ˈməd̪ʱə prəˈd̪eːʃ] [ⓘ]; lit. 'Central Province') is a state in central India. Its capital is Bhopal. Other major cities includes Indore, Gwalior, Jabalpur, and Sagar. Madhya Pradesh is the second largest Indian state by area and the fifth largest state by population with over 72 million residents. It borders the states of Rajasthan to the northwest, Uttar Pradesh to the northeast, Chhattisgarh to the east, Maharashtra to the south, Gujarat to the west.^[10]

The area covered by the present-day Madhya Pradesh includes the area of the ancient Avanti Mahajanapada, whose capital Ujjain (also known as Avantika) arose as a major city during the second wave of Indian urbanisation in the sixth century BCE. Subsequently, the region was ruled by the major dynasties of India. The Maratha Empire dominated the majority of the 18th century. After the Third Anglo-Maratha War in the 19th century, the region was divided into several princely states under the British and incorporated into Central Provinces and Berar and the Central India Agency. After India's independence, the Central Provinces and Berar was renamed as Madhya Pradesh with Nagpur as its capital, this state included the southern parts of the present-day Madhya Pradesh and northeastern portion of today's Maharashtra while Central India Agency was renamed as Madhya Bharat which includes parts of present day north western Madhya Pradesh became a separate state with Gwalior as its capital and Jiwajirao Scindia as Rajpramukh (Governor). In 1956, these states were reorganised and its parts were combined with the states of Vindhya Pradesh and Bhopal to form the new Madhya Pradesh state, the Marathi-speaking Vidarbha region was removed and merged with the Bombay State. This state was the largest in India by area until 2000, when its southeastern Chhattisgarh region was designated a separate state.

Madhya Pradesh's economy is the 10th-largest in India, with a gross state domestic product (GSDP) of ₹9.17 trillion (US\$110 billion) and has the country's 26th highest per-capita income of ₹ 109,372.^[6] Madhya Pradesh ranks 23rd among Indian states in human development index.^[11] Rich in mineral resources, Madhya Pradesh has the largest reserves of diamond and copper in India. 25.14% of its area is under forest cover.^[12] Madhya Pradesh has posted country's highest agricultural growth rate which had averaged above 20 per cent over last four years. The state leads the country in production of pulses, oilseeds, soya bean, gram, pea, garlic, guava, and medicinal and aromatic herbs. Horticulture is being promoted in a big way.^[13] Its tourism industry has seen considerable growth, with the state topping the National Tourism Awards in 2010–11.^[14] In recent years, the state's GDP growth has been above the national average.^[15] In 2019–20, state's GSDP was recorded at 9.07.^[16]

Etymology

Madhya Pradesh forms from *madhya* (middle, central) and *pradeś* (state, province). It literally means "central province".

History

Isolated remains of *Homo erectus* found in Hathnora in the Narmada Valley indicates that Madhya Pradesh might have been inhabited in the Middle Pleistocene era.^[17] Painted pottery dated to the later mesolithic period has been found in the Bhimbetka rock shelters.^[18] Chalcolithic sites belonging to Kayatha culture (2100–1800 BCE) and Malwa culture (1700–1500 BCE) have been discovered in the western part of the state.^[19] Madhya Pradesh is also the world's ninth-most populous subnational entity.

The city of Ujjain arose as a major centre in the region, during the second wave of Indian urbanisation in the sixth century BCE. It has served as the capital of the Avanti kingdom. Other kingdoms mentioned in ancient epics – Malava, Karusha, Dasarna and Nishada – have also been identified with parts of Madhya Pradesh.

Chandragupta Maurya conquered northern India around 320 BCE, establishing the Mauryan Empire, which included all of modern-day Madhya Pradesh. Ashoka the greatest of Mauryan rulers, conquered it, bringing the region under firmer control. After the decline of the Maurya empire, the region was contested among the Sakas, the Kushanas, the Satavahanas, and several local dynasties during the 1st to 3rd centuries CE. Heliodorus, the Greek Ambassador to the court of the Shunga King Bhagabhadra erected the Heliodorus pillar near Vidisha.

Ujjain emerged as the predominant commercial centre of western India from the first century CE, located on the trade routes between the Ganges plain and India's Arabian Sea ports. The Satavahana dynasty of the northern Deccan and the Saka dynasty of the Western Satraps fought for the control of Madhya Pradesh during the 1st to 3rd centuries CE.

The Satavahana King Gautamiputra Satakarni inflicted a crushing defeat upon the Saka rulers and conquered parts of Malwa and Gujarat in the 2nd century CE.^[20]

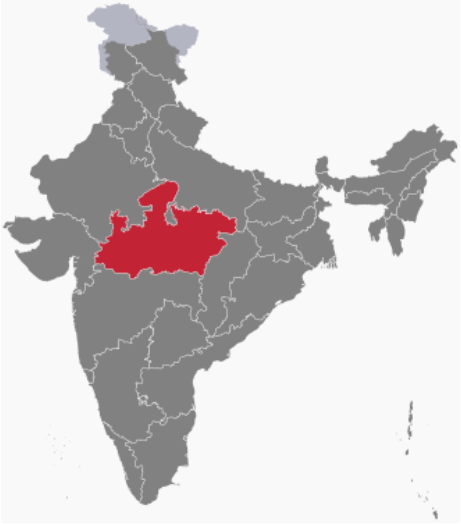

Subsequently, the region was conquered by the Gupta empire in the 4th and 5th centuries, and their southern neighbours, the Vakataka's. The rock-cut temples at Bagh Caves in the Kukshi tehsil of the Dhar District show the presence of the Gupta dynasty in the region, supported by the testimony of a Badwani inscription dated to the year of 487 CE.^[21] The attacks and the subsequent seize of Gwalior by the Hephthalites or White Huns brought about the collapse of the Gupta empire, which broke up into smaller states. The King Yasodharman of Malwa defeated the Huns in 528, ending their expansion. Later, Harsha (c. 590–647) ruled the northern parts of the state. Malwa was ruled by the south Indian Rashtrakuta Dynasty from the late 8th century to the 10th century.^[22] When the south Indian Emperor Govinda III of the Rashtrakuta dynasty annexed Malwa, he set up the family of one of his subordinates there, who took the name of Paramara.^[23]

The Medieval period saw the rise of the Rajput clans, including the Paramaras of Malwa and the Chandelas of Bundelkhand along with the Lodhis. The Chandellas built the majestic Hindu-Jain temples at Khajuraho, which represent the culmination of Hindu temple architecture in Central India. The Gurjara-Pratihara dynasty also held sway in Gwalior and western Madhya Pradesh at this time. It also left some monuments of architectural value in Gwalior. Southern parts of Madhya Pradesh like Malwa were several times invaded by the south Indian Western Chalukya Empire which imposed its rule on the Paramara kingdom of Malwa.^[24] The Paramara King Bhoja (c. 1010–1060) was claimed to be a renowned polymath. The small Gond kingdoms emerged in the Gondwana and Mahakoshal regions of the state.

In early 10th century Gwalior and northern Madhya Pradesh came under the rule of Kachchhapaghata dynasty, they belongs to the rajput clan. Gwalior was attacked and conquered by the Turkic Delhi Sultanate in the 12th century. Around 1500 Kachchhapaghata women along with the ladies of royal family committed jauhar at Gwalior Fort. The Kachchhapaghata later shifted to Amer (Jaipur). After the collapse of the Delhi Sultanate at the end of the 14th century, independent regional kingdoms re-emerged, including the Tomara kingdom of Gwalior and the Muslim Sultanate of Malwa, with its capital at Mandu.

The Malwa Sultanate was conquered by the Sultanate of Gujarat in 1531. In the 1540s, most parts of the state fell to Sher Shah Suri, and subsequently to the Hindu king Hemu. Hemu, who had earlier served as the General of the Islamic Suri dynasty, operated from the Gwalior Fort during 1553–56 and became the ruler of Delhi as a Vikramaditya king winning 22 battles continuously from Bengal to Gujarat and defeating Akbar's forces in the Battle of Delhi on 7 October 1556. However, he chose Delhi as his capital after his formal Coronation in Gwalior. After Hemu's defeat by Akbar at the Second Battle of Panipat in 1556, Akbar seized Gwalior along with this most of Madhya Pradesh came under the Mughal rule. Gondwana and Mahakoshal remained under the control of Gond kings, who acknowledged Mughal suzerainty but enjoyed virtual autonomy.

The Mughal control weakened considerably after the death of Emperor Aurangzeb in 1707. Gwalior came under the rule of Jats and Bhim Singh Rana become ruler. However, he was defeated by the Scindias in 1735. Between 1720 and 1760, the Marathas conquered most of Madhya Pradesh, resulting in the establishment of semi-autonomous states under the nominal control of the Peshwa of Pune: the Holkars of Indore ruled much of Malwa, Pawars ruled Dewas and Dhar, the Bhonsles of Nagpur dominated Mahakoshal-Gondwana area, while the Scindias of Gwalior controlled the vast northern parts of the state along

with Ajmer and Agra. Later Mughals accepted the surzenity of the Scindia dynasty. The most notable Maratha rulers of the region were Mahadji Scindia, Daulat Rao Scindia, Ahilyabai Holkar and Yashwantrao Holkar. Besides these, there were several other small states, including Bhopal, Orchha, and Rewa. The Bhopal state, which paid tribute to both the Marathas and the Nizam of Hyderabad, was founded by Dost Mohammed Khan, a former General in the Mughal army.

After the Third Anglo-Maratha War, the British conquered the entire region. All the sovereign states in the region became princely states of British India, governed by the Central India Agency. The Mahakoshal region became a British province: the Saugor and Nerbudda Territories. In 1861, the British merged the Nagpur Province with the Saugor and Nerbudda Territories to form the Central Provinces.

During the 1857 uprising, rebellions happened in the northern parts of the state, led by leaders like Tatya Tope, Rani Avantibai Lodhi. However, these were crushed by the British and the princes loyal to them. The state witnessed a number of anti-British activities and protests during the Indian independence movement.^[25] Several notable leaders such as Chandra Shekhar Azad, B. R. Ambedkar, Shankar Dayal Sharma, Atal Bihari Vajpayee, Rajmata Vijaya Raje Scindia, Arjun Singh and Madhavrao Scindia were born in what is now Madhya Pradesh.

After the independence of India, Madhya Pradesh was created in 1950 from the former British Central Provinces and Berar and the princely states of Makrai and Chhattisgarh, with Nagpur as the capital of the state. The new states of Madhya Bharat, Vindhya Pradesh, and Bhopal were formed out of the Central India Agency. In 1956, the states of Madhya Bharat, Vindhya Pradesh, and Bhopal were merged into Madhya Pradesh, and the Marathi-speaking southern region Vidarbha, which included Nagpur, was ceded to Bombay state. Jabalpur was chosen to be the capital of the state but at the last moment, due to political interference Jabalpur sacrificed his place of Capital but then Bhopal was made the state capital.^[26] In November 2000, as part of the Madhya Pradesh Reorganization Act, the southeastern portion of the state split off to form the new state of Chhattisgarh.

Geography

Location in India

Madhya Pradesh literally means "Central Province", and is located in the geographic heart of India in between the latitude of 21.6°N–26.30°N and longitude of 74°9'E–82°48'E. The state straddles the Narmada River, which runs east and west between the Vindhya and Satpura ranges; these ranges and the Narmada are the traditional boundaries between the north and south of India. The highest point in Madhya Pradesh is Dhupgarh, with an elevation of 1,350 m (4,429 ft).^[27]

The state is bordered on the west by Gujarat, on the northwest by Rajasthan, on the northeast by Uttar Pradesh, on the east by Chhattisgarh, and on the south by Maharashtra.

Climate

Madhya Pradesh also has three major seasons – Summer, Monsoon, and Winter. During summer (March–June), the temperature in the entire state ranges above 34.6 °C; it has increased as it is all-time high in Madhya Pradesh. In general, the eastern parts of Madhya Pradesh are hotter than the western parts. The regions like Gwalior, Morena and Datia record temperatures of over 42 °C in May. The humidity is relatively very low and the region usually experiences frequent mild dust storms. The southwest Monsoon usually breaks out in mid-June and the entire state receives a major share of its rainfall between June and September. The south and south-east regions tend to experience a higher rainfall whereas the parts of the north-west receive less. Jabalpur, Mandla, Balaghat, Sidhi, and other extreme eastern parts receive more than 150 cm of rainfall. The districts of western Madhya Pradesh receive less than 80 cm of rainfall.^[28]

The winter season starts in November. The temperature remains low in the northern parts of the state in comparison to the southern parts. The daily maximum temperature in most of the northern part of January remains between 15 and 18 °C. The climate is generally dry and pleasant with a clear sky. The average rainfall is about 1,194 mm (47.0 in). The southeastern districts have the heaviest rainfall, some places receiving as much as 2,150 mm (84.6 in), while the western and northwestern districts receive 1,000 mm (39.4 in) or less.

Ecology

According to the 2011 figures, the recorded forest area of the state is 94,689 km² (36,560 sq mi) constituting 30.7% of the geographical area of the state.^[29] It constitutes 12.3% of the forest area of India. Legally this area has been classified into "Reserved Forest" (65.3%), "Protected Forest" (32.8%) and "Unclassified Forest" (0.2%). Per capita forest area is 2,400 m² (0.59 acres) as against the national average of 700 m² (0.17 acres). The forest cover is less dense in the northern and western parts of the state, which contain the major urban centres. Variability in climatic and edaphic conditions brings about significant difference in the forest types of the state. In January 2019 1.5 million volunteers in the state planted 66 million trees in 12 hours along the Narmada river.^[30]

The major types of soils found in the state are:

- Black soil, most predominantly in the Malwa region, Mahakoshal and in southern Bundelkhand

- Red and yellow soil, in the [Baghelkhand](#) region
- Alluvial soil, in Northern Madhya Pradesh
- [Laterite](#) soil, in highland areas
- Mixed soil, in parts of the [Gwalior](#) [Chambal](#) region.

Rivers

Narmada River

Son River, Umaria district, MP, India

The River Narmada flows through a gorge of marble rocks in Bhedaghat, Jabalpur

The Shri Ram Ghat on the Shipra River in Ujjain

Betwa in the Ashoknagar District of Madhya Pradesh

The Narmada is the longest river in Madhya Pradesh. It flows westward through a rift valley, with the Vindhya ranges sprawling along its northern bank and the Satpura range of mountains along the southern. Its tributaries include the Banjar, the Tawa, the Machna, the Shakkar, the Denwa and the Sonbhadra rivers. The Tapti River runs parallel to Narmada, and also flows through a rift valley. The Narmada–Tapti systems carry an enormous volume of water and provide drainage for almost a quarter of the land area of Madhya Pradesh. The Narmada river is considered very sacred and is worshipped throughout the region. It is the main source of water and acts as a lifeline to the state.

The Vindhyas form the southern boundary of the Ganges basin, with the western part of the Ganges basin draining into the Yamuna and the eastern part directly into the Ganges itself. All the rivers, which drain into the Ganges, flow from south to north, with the Chambal, Shipra, Kali Sindh, Parbati, Kuno, Sind, Betwa, Dhasan, Ken and Sunarrivers being the main tributaries of the Yamuna. Shipra River is one of the most sacred rivers of Hinduism. It is the site of the Simhastha Kumbh Mela, which is held every 12 years. Shipra is stretched across Indore, Ujjain and Dewas. The land drained by these rivers is agriculturally rich, with the natural vegetation largely consisting of grass and dry deciduous forest types, largely thorny. The eastern part of the Ganges basin consists of the Son, the Tons and the Rihand Rivers. Son, which arises in the Maikal hills around Amarkantak, is the largest tributary that goes into the Ganges on the south bank and that does not arise from the Himalayas. Son and its tributaries contribute the bulk of the monsoon flow into the Ganges, because the north bank tributaries are all snow fed. The forests in their basins are much richer than the thorn forests of the northwestern part of Madhya Pradesh.

After the formation of Chhattisgarh State, the major portion of Mahanadi basin now lies in Chhattisgarh. Presently, only 154 km² basin area of Hasdeo River in Anuppur District lies in Madhya Pradesh.

The Satpuras, in the Gawilgarh and Mahadeo Hills, also contain a watershed, which is south facing. The Wainganga, the Wardha, the Pench, the Kanhan rivers, discharge an enormous volume of water into the Godavari river system. The Godavari basin consists of sub-tropical, semi-moist forests, mainly in the valley of the Indrawati. There are many important multi-state irrigation projects in development, including the Godavari River Basin Irrigation Projects.

Regions

Madhya Pradesh is divided into the following agro-climatic zones:

- Kaimur Plateau and Satpura Hills
- Vindhyan Plateau (Hills)
- Narmada valley
- Wainganga valley
- Chambal valley
- Gwalior Region
- Bundelkhand Region
- Satpura Plateau (Hills)

Demographics

Population

The population of Madhya Pradesh consists of a number of ethnic groups and tribes, castes and communities. The scheduled castes and the scheduled tribes constitute a significant portion of the population of the State 15.6% and 21.1% respectively.

The main tribal groups in Madhya Pradesh are Gond, Bhil, Baiga, Korku, Bhadia (or Bhariya), Halba, Kaul, Mariya, Malto and Sahariya. Mandla, Dhar, Dindori, Barwani, Jhabua and Alirajpur districts have more than 50% tribal population, with Jhabua and Alirajpur having nearly 90% tribal population. In Khargone, Khandwa, Burhanpur, Betul, Chhindwara, Seoni, Anuppur, Umaria, Shahdol and Singrauli districts 30–50% of the population is tribal. According to the 2011 census, the tribal population in Madhya Pradesh was 15.34 million, constituting 21.1% of the total population. There were 46 recognised Scheduled Tribes and three of them have been identified as "Special Primitive Tribal Groups" in the State.^[41]

Madhya Pradesh ranks 33rd on the Human Development Index with a value of 0.606 (2018).^[42] The state's per-capita gross state domestic product (nominal GDP) is the 26th highest in the country (2018–19). According to the SDG India Index 2020–21 compiled by the NITI Aayog, Madhya Pradesh ranks 21st on sustainable development goals, 9th on gender equality, and 10th on clean water and sanitation.^[43]

Languages

The official language of the state is Hindi, which is spoken by over two-thirds of the population and is used for all government business.^[4] In urban areas Standard Hindi is the main language, while Urdu is spoken by Muslims. In rural areas, however, most speak varieties counted as dialects of Hindi in the census, although most are quite distinct. In the west are Malvi and Nimadi in the Malwa and Nimar regions, which are more closely related to the Rajasthani languages. In Bundelkhand in the north and Baghelkhand in the east are spoken Bundeli and Bagheli which are eastern varieties of the Hindi languages, similar to Awadhi or Chhattisgarhi. In the southeast is spoken Chhattisgarhi and Powari is the language of the far south, both Eastern Hindi languages. Most speakers of these languages consider them to be dialects of Hindi and so report their language as 'Hindi' on the census.^[45]

Marathi is another significant language. Due to Maratha rule over much of what is now Madhya Pradesh, Madhya Pradesh is home to the largest number of Marathis outside Maharashtra. Although large numbers of Marathis can be found in urban centres like Indore, the highest concentrations are in the southern areas of the state adjoining Maharashtra. Marathi is the most-spoken language in Burhanpur district, while it is a major minority language in the southern parts of Mahakoshal especially Betul, Chhindwara and Balaghat districts.^[45]

There are several languages spoken by the Adivasis. The various Bhil languages are Indo-Aryan languages spoken by 50 lakh Bhils of western Madhya Pradesh. Although many, especially in the eastern parts of their range, have adopted the regional languages as mother tongue, the languages are still strong in the far-western hills especially Barwani, Jhabua and Alirajpur districts where they are in the majority. Bhili, the Bareli languages and Bhilali are the major varieties spoken in the state.

Gondi is the second-largest Adivasi language, spoken by 11 lakh Gonds in the state. A Dravidian language related to Telugu, it is mainly spoken in the southern Satpura highlands of Mahakoshal, where it is spoken with the regional languages. Some in the more remote valleys of the Satpuras speak a poorly-described Dravidian dialect called Bharia. Smaller minorities of Gondi speakers can be found in Khandwa and Dewas districts in the west as well as Anuppur, Sidhi and Singrauli districts in the east. Elsewhere in the state, the Gonds have almost totally abandoned their original language.

Korku, a Munda language, has over 400,000 speakers in the central highlands of the state. In the far-southeast of Burhanpur can be found some speakers of the language isolate Nihali who live among the Korku. All speakers of tribal languages face significant pressure to switch to the dominant regional languages while their own tongues are considered 'backward' and 'rural'.^[45]

The following languages are taught in schools in Madhya Pradesh under the Three Language Formula:^[46]

First language: Any Scheduled Language

Second language: Hindi, Urdu or English

Third language: Another Scheduled Language, Arabic, Persian, French, Russian

Religion

According to the census of 2011, 90.9% of residents followed Hinduism, while minorities are Muslim (6.6%), Jain (0.8%), Buddhists (0.3%), Christians (0.3%), and Sikhs (0.2%). Madhya Pradesh is home to several pilgrimage sites including Amarkantak at the source of the Narmada and the Ghats of Omkareshwar, also on the Narmada. Temples can be found throughout the state. Buddhism and Jainism were once prominent religions in the state, especially in the central plateau near Raisen and Bhopal. Malwa is still home to a significant Jain minority. Jains are particularly concentrated in the urban centres of the Malwa region. Islam arrived with Muslim rule in the 14th century, although its influence was and is limited to major urban centres. Islam is a major religion in Bhopal and Burhanpur, and Bhopal is home to many prominent Islamic shrines. Buddhism in modern times is mainly practised by Marathis in the south. Most respondents who answered 'Other' self-identified as following Adivasi religions such as Koya Punem of the Gonds.^[47]

Government and politics

Madhya Pradesh has a 230-seat state legislative assembly. The state also sends 40 members to the Parliament of India: 29 are elected to the Lok Sabha (Lower House) and 11 to the Rajya Sabha (Upper House). The constitutional head of the state is the Governor, appointed by the President of India. The executive powers lie with the Chief Minister, who is the elected leader of the state legislature. The current governor is Mangubhai C. Patel, and the current chief minister is Mohan Yadav of the Bharatiya Janata Party (BJP).

The political scenario of Madhya pradesh can be defines as below:

Post-Independence (1950s–1970s): The Indian National Congress (INC) held power for a significant period, with leaders like Ravishankar Shukla and Kailash Nath Katju as Chief Ministers. However, parties like Bharatiya Jana Sangh (BJS) – the precursor to BJP – started gaining ground in the 1960s.

Shifting Tides (1980s–1990s): This era saw a rise in regional parties and national alternatives. Janata Party (JP), Janata Dal (JD), and Bahujan Samaj Party (BSP) challenged the INC's dominance for a while.

Bi-polar Politics (2000s–present): Since the early 2000s, a two-party system has emerged. BJP and INC have become the main contenders, with occasional forays by smaller parties.

The dominant political parties in the state are the Bharatiya Janata Party (BJP) and the Indian National Congress (INC).
